Home Ventilator Services

Services

- We provide complete training for caregivers and nursing agencies.
- We will also train new nurses or caregivers who come to the patients home at a later date.
- All trainees are administered a hands-on test and a written exam, to ensure the safety of our patients.
- We visit our ventilator patients twice a month, and as needed.
- Delivery, setup and patient instruction are free of charge.

Patient Care

A trained staff of home-care professionals ensures that each patient is fully trained on the operation and care of each piece of equipment. Instruction is carried out in the comfort and convenience of the patient's home. Additionally, our respiratory therapists and home-care therapists are available for follow-up service to patients. We have respiratory therapists on staff and on call 24 hours a day, seven days a week.
